STILL ON THE TRAIL OF PROFIT ON FUNDS

FIND INTEREST DUE THE STATE

Probers Examining Bank That Handled State Funds.

CHECKS AND RECORDS MISSING

Columbus Savings and Trust Company, Now Defunct, Said to Have Been Used as an Illegal Depository Without Interest to the State, Both Before and After the Enactment of the Depository Law.

Columbus, O., March 11.—Claims for a large sum of interest due the state are expected to be proved by evidence to be collected in a series of inquiries into the affairs of banks with which state treasurers have deposited funds. The hearings were begun at the Columbus Savings and Trust company directors' room before Special Commissioner George T. Okey.

The examination was conducted by Attorneys H. J. Booth and Robert W. McCoy for the state. Edward C. Genoe, representative of Ernst & Ernst, certified public accountants of Cleveland, was the first witness.

It developed that a large part of the papers and records of the Columbus Savings and Trust company, which were necessary for evidence, could not be found. According to the testimony, cashier checks had been taken from the files and could not be found, and records showed erasures where entries in which the state might be interested had been made.

The state depository law, providing for the depositing of state funds with banks paying a satisfactory rate of interest, went into effect in December, 1904. Testimony obtained from Mr. Genoe indicated that Dec. 2, 1904, the Columbus Savings and Trust company, now defunct, transferred \$200,000 from the noninterest-bearing account to the interest-bearing account. This was declared to be money of the state, and shows, according to the attorneys, the extent to which the bank had been used as an illegal depository without interest to the state, prior to the depository law.

It was disclosed that after the depository law had gone into effect large sums of the state were carried as non-interest-bearing accounts. The evidence indicated that from Aug. 7, 1905, to Jan. 8, 1909, the daily average deposit had amounted to \$90,000, for which the state received no interest.

What Testimony Shows.

According to the testimony obtained from Mr. Genoe, a deposit of \$18,152.59 was made by the then state treasurer, W. S. McKinnon, Aug. 22, 1906. Of this amount \$15,000 went into a draft dated Aug. 30, 1906, payable to the late Mr. McKinnon. The balance was paid back to the state Sept. 25, 1906. Dec. 27, 1906, Treasurer McKinnon deposited \$92,112.55, and this was paid back to the state as follows: Feb. 27, 1907, \$17,112.55; March 2, 1907, \$25,000; March 6, 1907, \$50,000. Jan. 3, 1907, Treasurer McKinnon deposited \$176,000 with the bank, which was paid back to the state as follows: March 27, 1907, \$20,000; March 28, 1907, \$15,000; April 5, \$20,000; May 2, \$10,000; May 3, \$100,000; June 25, \$10,000.

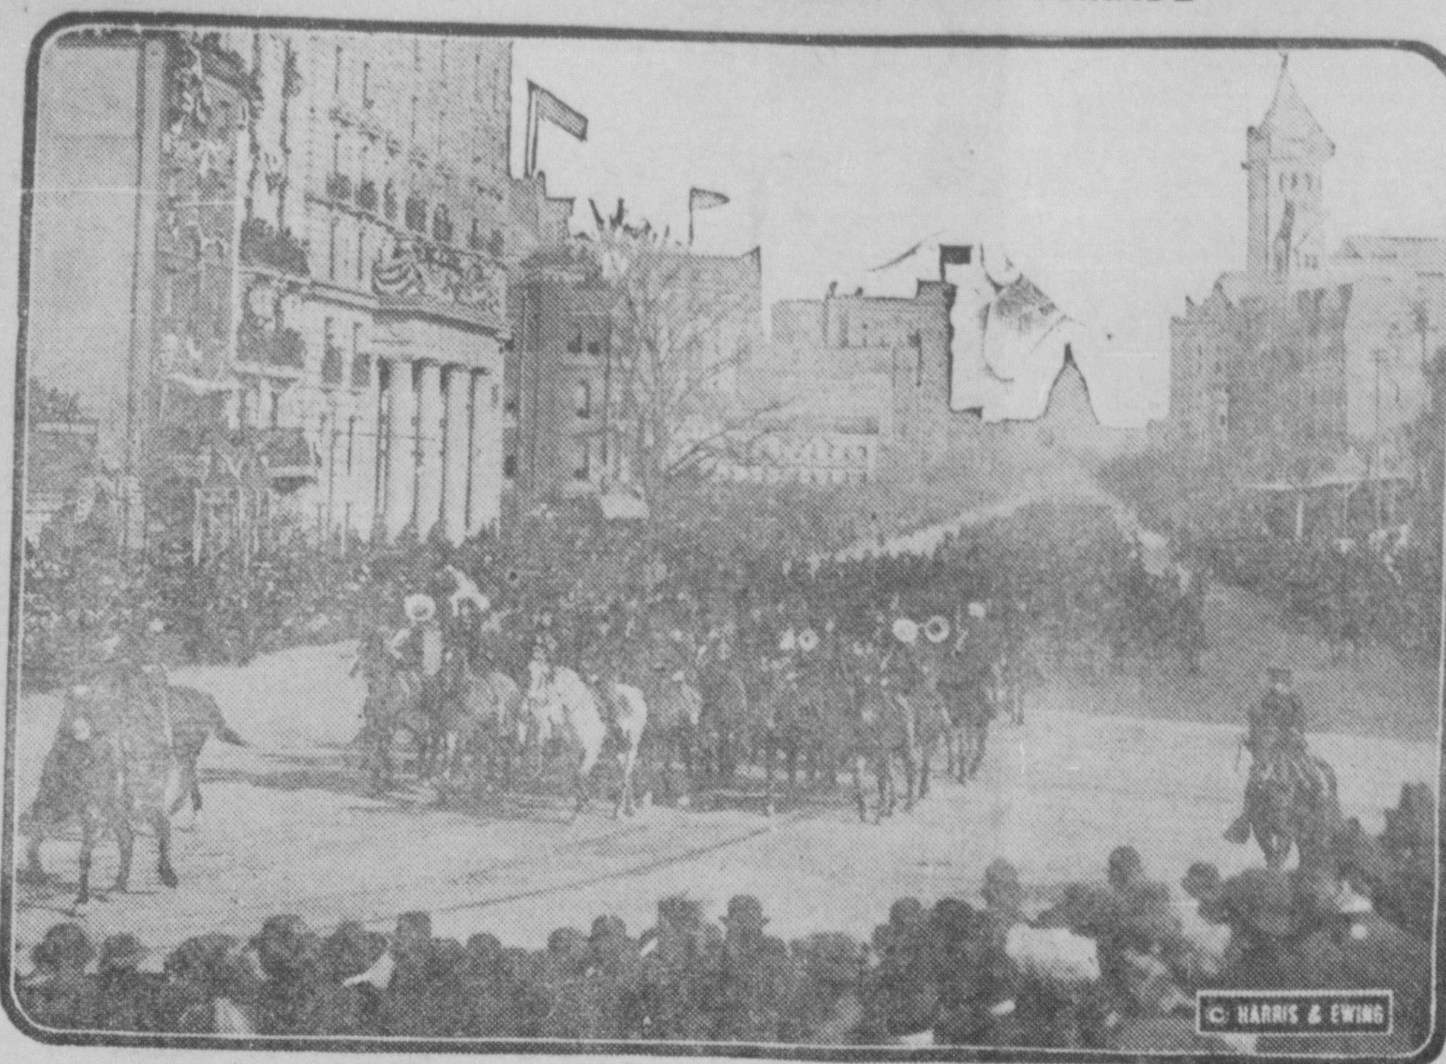

The treasurer deposited \$44,568.92 July 10, 1907, which was paid back to the state as follows: Dec. 28, 1907, \$20,000; Dec. 31, 1907, \$11,357; Jan. 7, 1908, \$11,357.

In every instance inquired into it was found that the cashier's check was missing and there is no record of the state having received any interest on the funds deposited.

Attorney H. J. Booth said after the hearing that where it was found state funds had been deposited prior to the

CONFERS WITH DESIGNER

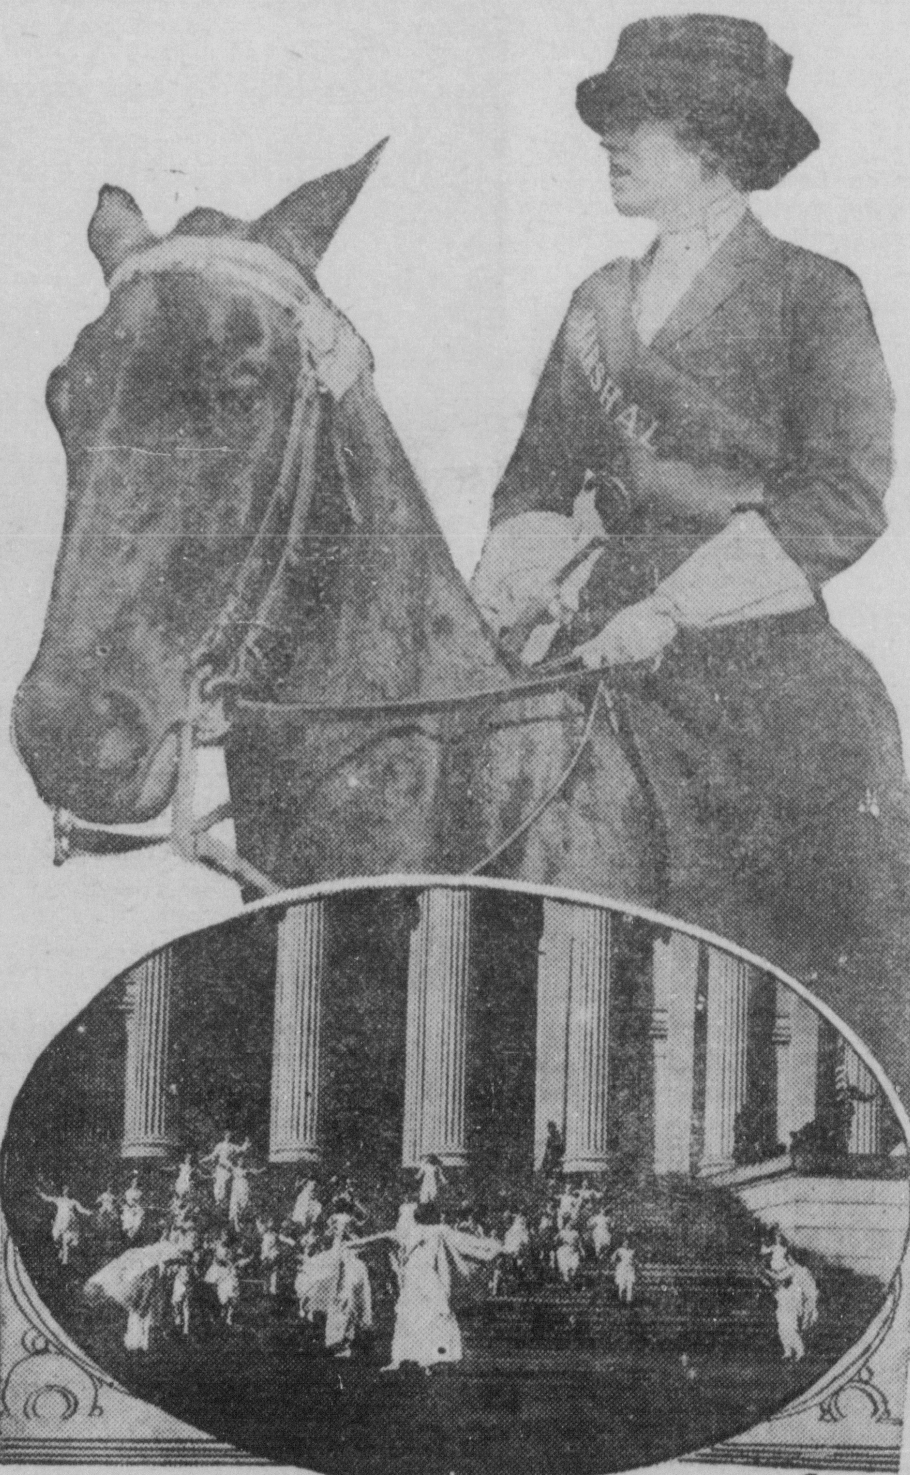

Lipton Confident of Lifting America Cup With His New Boat.

London, March 11.—Sir Thomas Lipton has just returned from Southampton, where he has been conferring with Designer Nicholson in regard to the new challenger for the America's cup. Referring to the 75-foot limit, Sir Thomas said that he was naturally reticent about expressing an opinion, but he had reason to hope that the sportsmanlike spirit of American yachtsmen would prevail to the extent that the terms of his challenge would be accepted. He added that Mr. Nicholson was very sanguine of his ability to build a boat that would beat anything on the other side, despite the drawbacks of having to cross the Atlantic.

Baxter's Resignation Accepted.

Columbus, O., March 11.—Governor Cox received the resignation of Frank E. Baxter of Lima, state superintendent of banking. The resignation was promptly accepted. Baxter was accused of borrowing a large sum of money from the defunct Columbus Savings and Trust company, with which he repaid a private loan.

WOMEN suffragists who saw the big "votes for women" parade in Washington recently are still wondering how the grand marshal, Mrs. Richard C. Burleson, managed to live through the gantlet of the pushing crowds. Mrs. Burleson is here shown on her mount as she appeared at the head of the procession. The other picture is of one of the dances on the steps of the treasury. The dances and tableaux were a unique feature of the suffragist event.

OHIO HAPPENINGS

Cox Interested in Probe.

Columbus, O., March 11.—Governor Cox conferred with his advisors as to the best methods of proceeding to secure a living wage for shop girls. The governor has read with great interest the reports of the testimony before the Illinois state senate committee investigating in Chicago. He was debating whether to conduct a similar investigation in Ohio or to proceed with enacting a minimum wage law.

Testify Against Kohler.

Cleveland, O., March 11.—Friends of Samuel D. Scheerer described to the civil service commission the conversation which followed when

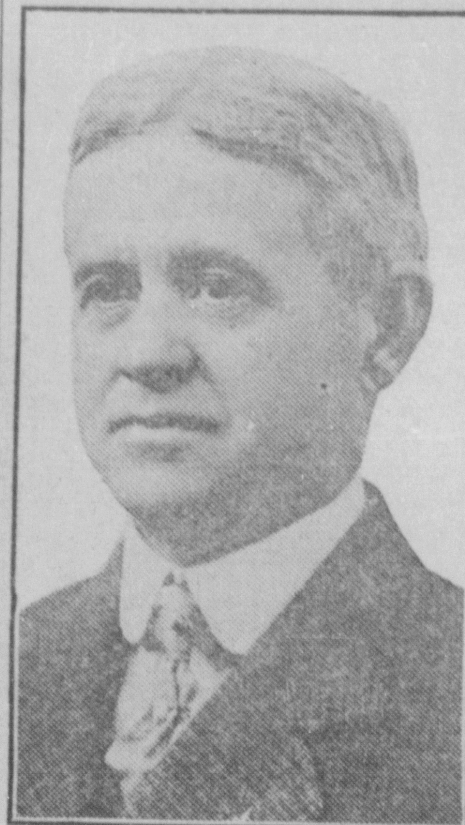

Scheerer surprised Chief of Police Fred Kohler in company with Mrs. Mrs. Shearer in her home on June 5, 1912. This and other visits, Mayor Baker and City Solicitor Wilcox claim, constitute conduct unbecoming an officer and gentleman.

Body That of Ohio Woman.

Columbus, O., March 11.—The decomposed body found in the Mississippi river at St. Genevieve, Mo., is believed to be that of Mrs. Ethel Keating Boggs, who disappeared from her home in Kansas City, Mo., Aug. 2, 1912. Her father, T. J. Keating, a local attorney, stated that there was strong reason to believe that the long mystery of her fate had been solved.

Licking Solon Fathers Congressional Gerrymander Bill.

MERCY! SUPPOSE THIS BILL IS MADE THE LAW

GERRYMANDER BILL BEFORE THE HOUSE

Even Division of Congressional Districts By 1908 Vote.

Columbus, O., March 11.—The Fulton congressional gerrymander bill was introduced in the house. It carves out 11 Democratic districts and 11 Republican districts, according to the Taft-Bryan vote of 1908.

The bill, of course, abolishes the position of congressman-at-large, held by Robert Crosser of Cleveland. The additional congressman, under the apportionment, goes to Cuyahoga county, which, with Geauga and Lake, is divided into three districts.

Of these three districts, two are Democratic and one Republican under the 1908 vote. Hamilton county will continue to be divided into two districts. The division is so altered as to insure the Second district being Democratic. The First would be Republican under ordinary circumstances. The only district not changed by the gerrymander is the Twelfth, Franklin county.

Counties, population and political complexion under the 1908 vote of the Third to Nineteenth districts, inclusive, follow:

Third District—Butler and Montgomery counties, population, 234,034; Democratic plurality, 2,855.

Fourth—Darke, Miami, Shelby, Auglaize, Mercer; population, 195,420; Democratic plurality, 5,141.

Fifth—Van Wert, Putnam, Paulding, Defiance, Williams, Fulton, Henry; population, 180,650; Democratic plurality, 2,887.

Sixth—Adams, Highland, Brown, Clermont, Warren, Clinton, Greene; population, 185,159; Republican plurality, 4,343.

Seventh—Fayette, Madison, Clark, Champaign, Logan, Union, Delaware; population, 213,569; Republican plurality, 8,140.

Eighth—Marion, Hardin, Allen, Wyandot, Hancock, Wood; population, 226,908; Democratic plurality, 2,743.

Ninth—Lucas, Ottawa; population, 215,088; Republican plurality, 1,380.

Tenth—Scioto, Lawrence, Gallia, Jackson, Meigs, Athens; population, 217,879; Republican plurality, 12,209.

Eleventh—Pike, Ross, Pickaway, Fairfield, Perry, Hocking, Vinton; population, 193,293; Democratic plurality, 2,142.

Twelfth—Franklin; population, 224,567; Republican plurality, 5,609.

President Huerta Sends Big Force Into State of Sonora.

BLOODSHED HELD NECESSARY

Predicts Complete Pacification of the Mexican Republic by May Day and Hopes to Leave Fifty Million Pesos in the Treasury For His Successor. French Capitalists Offer Mexicans a Heavy Loan.

Mexico City, March 11.—Provisional President Huerta, discussing the situation in the state of Sonora, said it presents problems that are more of a political nature than military. He expressed the belief that matters in that state at any other time could be settled peacefully by negotiations long drawn out, but such a course, he believes unwise at present, as immediate pacification is imperative. Therefore, he had dispatched a large force to that state with this end in view.

While regretting the bloodshed that would probably ensue, President Huerta said the action would have an exemplary effect. In addition to some 4,000 men already dispatched to Sonora, he declared the forces now stationed in the state of Coahuila would shortly follow, as the situation in that state has improved.

President Huerta further said that peace negotiations with Zapata, the bandit chief, had almost been concluded, and it was probable that Zapata would be placed in command of all the forces in the state of Morelos. He said his ambition was to bring about pacification of the country by May 1 in order that his successor, whoever he may be, would be ready to assume the presidency. He further asserted that by the time he relinquished the reins of office he hoped to leave not less than 50,000,000 pesos

House Adopts Resolution For Inquiry Into Fire Insurance Methods.

Columbus, O., March 11.—More work was laid out by the reconsideration and adoption by the house of the Mooney resolution for a probe of fire insurance methods. Last week the house killed the resolution after the senate had adopted it. It was adopted when it came up again in the house by a vote of 77 to 15.

The Warnes tax assessment act, an administration measure, was introduced in the house.

The Volmer woman's nine-hour day work bill, the Haas industrial commission measure, which has passed the senate, and the Bigelow bill to nullify the 50-year franchise of the Cincinnati Traction company, are assigned for consideration by the house today.

FRIENDLY RIVALRY BETWEEN TWO LARGE MEN'S BIBLE CLASSES

Athens Downs Nelsonville on Attendance Sunday, and Establishes Red Letter Day--Rev. Boden, Formerly Pastor of Local Church, Is Back of Banner Bible Class.

Considerable friendly rivalry has developed between the huge Men's Bible classes at Nelsonville and Athens, and Sunday witnessed a larger attendance at Athens than at Nelsonville.

It is not generally known that Rev. Boden, who was pastor of the Christian church in this city for several years, and left some five or six years ago, is at the head of the Nelsonville church which possesses the banner class of 1913.

Rivalry between Rev. Boden's class and the Athens class is mentioned by the Athens Messenger, which says:

"Sunday was the big red letter day at the First M. E. church, the red letters being at least a yard long. At the five services, Sunday school, morning church service, funeral of Miss Kate Boyd, Epworth league and evening concert a conservative estimate is that there were at least 2000 different men, women and children present or a third of the entire population of Athens. It is ventured that no other church in a town of its size or larger in Ohio has ever been known to have such a record for one day."

The Sunday School.
There were 1481 in the Sunday School, 36 teachers and officers, 25 visitors and 1420 scholars when the record was made up and it was said a few more came in afterward. Of this number there were 840 in Prof. Copeland's class of men. Mrs. Martzoff had 104 women in her class and Prof. Martzoff had 67 men and women in his class. In the primary department there were 96, the remaining adult and intermediate pupils to the number of 388 being divided among a number of classes.

The total number of men present was 872 and of women 307. Of the total collection Copeland's class contributed \$30.85 and the primary department \$1.06.

The Copeland class beat its own record the other day. The Bereans of Nelsonville had an attendance of 640.

The Class Picture.
After Sunday school was over at a few minutes after 10 o'clock most of those present wended their way to the Masonic Temple where a panoramic picture of the 840 men of Copeland's class was taken by George C. Lore, a Columbus photographer. The class was placed in the front of the Temple and included the band and instruments used before the opening of the Sunday school. In front of them and facing the men must have

been enough more people to make at least 1500.

Among the members of the class were Chas. Morris, 90, Pat Mournie, 85 and Bill Ring the biggest man in Athens, who was celebrating his birthday.

The Nelsonville Picture.
Cards were received by several members of the Copeland class which had on them two groups of faces. The faces were Berean all right. There were five of them and they were T. A. Dowd, C. J. Saunders, R. A. Doan, Dr. Welch and Henry Poston. The pictures were illustrative of two kinds of grin, chagrin and broad-grin. Under the upper one was printed: "This is the way we looked last Sunday when Athens beat us," and under the lower one, "This is the way we will look next Sunday if you bring a fellow and we beat Athens. They are trying for a record breaker at Athens. Help Us Smile."
News of how they actually looked has not reached Athens yet.

Great Revival In Rev. Locke's Church

Of much interest to Washington people is the good word from Columbus of a remarkable revival in the Third Avenue church, of which Rev. Thomas W. Locke, former pastor of Grace church, is the pastor.

Since the Sunday meetings closed Rev. Locke has been conducting evangelistic services, which, so far, have resulted in 130 conversions and accessions to the church. On a recent Sunday 470 people were received into this church.

During the past three weeks the membership has been increased 540 and still accessions are being made. The present membership of the Third Avenue church is over 1,600 and at the regular Sunday services the seating capacity of this large church is taxed to its limit.

For reasons quite obvious, an assistant pastor is to be secured in the near future.

Dramatic Club Coming March 28

Arrangements were completed Tuesday night by the Social committee of the Y. M. C. A. for the appearance of the Ohio State University Dramatic club at the Empire Opera House in this city on Friday evening, March 28th.

The play to be produced here is "The Clean Up", one of the strongest ever produced by the club. Special attention is given to wardrobes, and scenery, and the entertainment will be strictly high class. It is believed that the troupe will play to a full house in this city.

Rural Carrier Breaks His Arm

Edgar M. Neil, rural mail carrier on Route No. 8 out of this city, is confined to his home suffering from a broken arm sustained Monday while stopping at the Ralph Allen residence near Staunton where he eats dinner and feeds his horse.

Mr. Neil was in the act of securing his horse from the barn, and in climbing a fence his foot slipped and he fell with his right arm doubled under him, dislocating the arm at the elbow and tearing the ligaments in a very painful manner.

Physicians from this place were summoned and treated the injured arm. Substitute Roy Thompson finished the delivery of mail on the route, and Mr. Neil remained at the Allen home until Tuesday morning, when he was brought back home.

Wrecking Crane Damages Bridge

Monday while the big wrecking crane of the D. T. & L. railroad was on its way from Springfield to Jackson, the top of the crane crashed into a bridge in the outskirts of Springfield, wrecking the bridge and damaging the crane.

It is supposed that the crane had not been lowered as much as it should have been, and when it was in the act of passing under the bridge it crashed into the top of the structure, with the results as above mentioned.

It will require several days to repair the bridge. The crane was on its way to Jackson to load some heavy timbers at that point.

Installs New Soda Fountain

A handsome new soda fountain of latest design is being installed in the Christopher drug store, supplanting the old fountain which has been in use several years.

The fountain is of pure white with German silver trimmings, and is built along sanitary principles. It is a product of the Bishop, Babcock and Becker company, of Cleveland, and will be ready for use within the next day or two.

Two Specials For The Horse Show

The Ohio Horse Sales Company has succeeded in making arrangements for two extra trains to handle the evening crowd at the Horse Show in this city on the evening of March 31.

One of the trains will be a west-bound on the B. & O. and the other will go as far as Dayton on the C. H. & D. railroad.

Extensive arrangements are being made to handle the big crowd expected to attend the show.

Mrs. J. F. Dennis Loses Sister

Mrs. J. F. Dennis received word Tuesday morning of the death of her sister, Mrs. Maggie Sutherland, widow of the late Rev. Dr. Sutherland, of Cincinnati, at the home of her daughter, Mrs. Charles Medaris, in Toledo.

Mrs. Sutherland was a lovely woman, who made friends in whatever community she was located, and her death will be learned with regret by friends of earlier visits in this city.

Her death leaves Mrs. Dennis the only one of her family.

Mrs. Dennis left on the afternoon train for Toledo and will accompany the daughter to the old home in Cincinnati for the funeral services, which will be held Friday in the chapel of Spring Grove cemetery. The interment will be in Spring Grove cemetery.

"The Man From Home"

Different people have adopted different methods by which they estimate a man's true worth and different standards by which a man's real character is measured.

Many people have adopted the same method and that method, the individual experience of the people who have adopted it, has taught them to regard as the best method.

Generally speaking some standard furnished by their vocation in life is the one usually adopted by people. The banker has his standard, the merchant his, the professional man his and the gambler his—each one his own peculiar method suggested to him by the tests of his every-day life.

Then there are certain other methods, more or less common to all men in the several vocations of life. These may be more properly styled the general methods or standards and in that class there is no standard more often called upon, none which experience has taught to be more reliable than the one which brands as wrong the man who has nothing but unkind words to speak of his boyhood home.

There is something wrong about the man who can speak only evil of his birth-place, the town in which he grew from babyhood to manhood by the successive stages.

The man who can see only wrong in the people who make up the community of his first home is not right himself.

Most real men who fail at home, but prosper abroad always retain the fondest memories of the old home town and recall with pleasure each one of the inhabitants who knew him and endured his boyish pranks in the good irresponsible days that have passed.

Time and real success in the man worth while serve but to remove the memory of the heartaches and failures and to polish up the bright spots of the happy days that have gone forever.

When the man from home launches forth into abuse of his old home town and the people who make it, his listeners almost always set him down as a man lacking in real worth.

When success of the man from home has embittered the memory of the past then nine hundred and ninety-nine times out of a thousand it may be set down as a fact that there is either something wrong with the success or something radically wrong with the past.

There is no spot on earth dearer to the real man than his old home town and each one of its limitations, each one of its shortcomings is blotted out by the bright memory of the happy days when it was the biggest and best town known.

The man who speaks well of the place of his birth is the man you can tie to and the man who remembers and recounts only its faults is the man to pass by.

Powerful American Navy For World's Peace

By Senator HENRY CABOT LODGE of Massachusetts

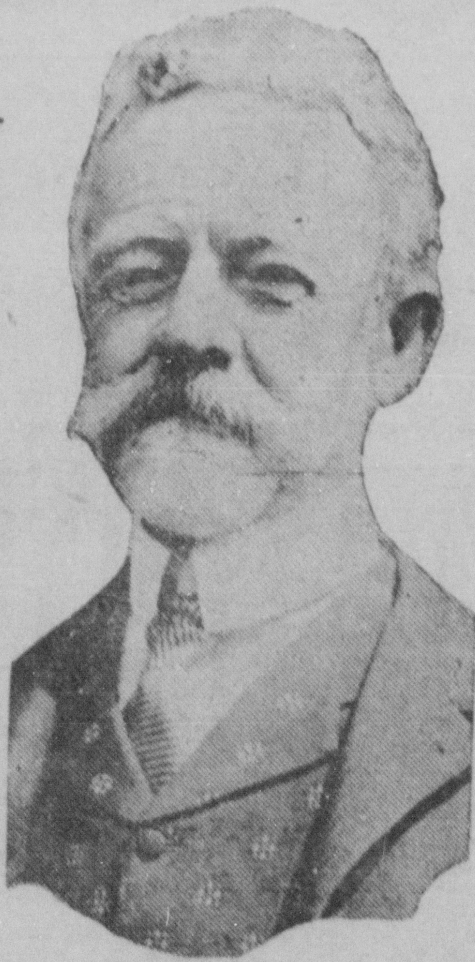

FOR THE PEACE OF THE COUNTRY, AND THEREFORE THE PEACE OF THE WORLD, A POWERFUL AMERICAN NAVY IN THE PRESENT CONDITION OF HUMAN AFFAIRS IS ABSOLUTELY ESSENTIAL.

The United States seeks no territory and desires no conquests. There is no nation on earth with which we do not wish to maintain the most friendly relations. A powerful navy is a GUARANTEE OF PEACE AND NOTHING ELSE. If we abandon it within five years—certainly within ten years—aggressions would be made upon us which the American people WOULD NOT TOLERATE for a moment.

No extravagance which can be committed will equal that of economizing by reducing the navy.

A few years ago England undertook to economize in her navy. As a consequence she is now, for the first time in two hundred years, to take a backward step in the Mediterranean and withdraw her fleet to Gibraltar, and at this moment she is striving with feverish haste to make up by LAVISH APPROPRIATION FOR THE TIME SO UNWISLY LOST.

THAT THE UNITED STATES SHOULD BE AT PEACE WITH ALL NATIONS AND SHOULD EXERT ITS GREAT INFLUENCE FOR THE MAINTENANCE OF THE WORLD'S PEACE IS ABOVE ALL THINGS TO BE DESIRED, BUT THE PRIMARY CONDITION OF OUR PEACE RESTS UPON THE NAVY OF THE UNITED STATES. WHILE WE HAVE A POWERFUL NAVY NO ONE WILL ATTACK US AND WE SHALL BE ABLE TO USE OUR INFLUENCE IN THE CAUSE OF PEACE EVERYWHERE.

Poetry For Today

THE AVERAGE MAN.

He is straight and tall and broad and strong,
And he is clean and neat.
He fares him forth with cherry song,
A figure good to meet.
He makes no pose of pride or wealth.
He does what'er he can;
So here is toast and here is health
To the great average man!

He has a true and loving wife
Who greets him with a kiss.
His home is free from jar and strife,
A breathing place of bliss;
And so because of steadfast trust
In the Creator's plan
He makes this human life august—
The splendid average man!

He loves the tender common things,
The pine against the sky;
The happy bird that sings and sings
Upon the treetop high.
The gorgeous race of flowers he loves;
He loves the rainbow's span;
The greenwood and the painted groves
Delight the average man!

He fights for honor and for truth
He strives for aye to be—
Examples for the eyes of youth,
A force for honesty.
His face is open as his soul;
His thought is clean to scan;
Good luck attends him to his goal—
All hail the average man!

We received a letter the other day from the immortal J. N., the greatest philosopher of the age. The immortal martyr to the truth still lives and informs us that he designs to address the people of this place tonight. He stands up manfully under the "pressure," and proposes to "hit the nail" and expose error to the wondering gaze of our citizens. J. N. has traveled, and is undoubtedly, from his stand point, the greatest reformer of the present day and generation.

INTERESTING BITS OF NEWS

The Erie railroad has had a judgment taken against her for \$54.50 in a rather unusual civil suit in the court at Richwood, last week.

George Worden, in his best "bib and tucker" was taking a leisurely stroll and thereby happened to pass close to the defendant's engine, when with malice aforethought a great stream of greasy oil completely deluged his person, destroying his best clothes and disturbing his peace of mind. The judgment was taken by default.

The anti-cigarette league of Marysville, composed of young high school boys adopted the following war-cry at a meeting last week:

"Who are! Who are! Who are we? Ohio growing boys;
All together we mean to fight
For purity, temperance and all that's right;
In 1920 this nation's dry! dry! dry!
Who'll help to make it so? I! I! I!"

A curfew ordinance, that provides fines for parents who don't have their girls at home early in the evening, is being advocated by Judge Black, of Columbus. He is convinced that girls who are allowed to run the streets at night are the chief offenders in the juvenile court.

According to those who have opened maple sugar camps, the season has been one of the poorest for years, attributed to the open winter. For a good sugar season they say it is necessary for considerable freezing weather and this we have not had to any great extent this year. However, it may be colder again and the run of sap just begun.

HOW ABOUT RECOGNITION?

MEXICO: "PUT 'ER THERE, NEIGHBOR."
—Darling in Boston Globe.

A GOOD START.

Legislators and public officials throughout the United States could well profit by the example set by the members of President Wilson's cabinet in reporting to work at a reasonable hour. Public office has too long been regarded as a sinecure and a change in the attitude of the incumbent would at once prove profitable to the people.

The members of Wilson's official family reported for work at 8 o'clock upon the morning of their first day in office. They stayed until noon and then went back after an hour for lunch and worked throughout the afternoon. Moreover, they announced that they intended to pursue this plan throughout the term of the administration and that they would work at their desks in the same manner as if they were employed by a private corporation.

This attitude is refreshing. In the past it has been the custom for men in public life to get to work about lunch time and leave their desks for the day shortly after the noon hour. Short hours, long vacations and neglected work have been the rules observed by the former officials. Judges upon the bench, with their courts two years behind in their dockets, have insisted upon working five hours daily and have taken vacations lasting three months in the summer. Executive heads of departments have gone upon European trips when their work was piling up faster than the entire force could handle it. Legislators have insisted upon working four days a week when it was certain that the legislation before the various committees could not be disposed of during the term.

It is to be hoped that the new plan will not prove a flash in the pan or a case of a new broom sweeping clean. The public has been paying its good money for service which it did not get and an attempt to give a fair day's work for the salary paid will win approval from the taxpayers. It is difficult to see why officials should not attend to business. The public work must be done and it is necessary that the officials attend strictly to business if they expect to keep the various departments running on schedule time. Much of the waste and the bulk of the useless expenditures are caused by the department heads' failure to keep at work, and the new policy, if carried out, will result in the saving of thousands of dollars to the government yearly. The new administration has started well and it is hoped that it will live up to its first day's record.—Springfield Sun.

Legislative Action Will Probably Be The Outcome

OUTCOME OF INQUIRY INTO WHITE SLAVERY

Minimum Wage Law of \$2 a Day For Women of Illinois.

Chicago, March 11.—A minimum wage law which will specify \$2 a day for women and girl workers in Illinois probably will be the net result of the state senatorial vice commission investigation of white slavery and its relation to small wages paid in big department stores and in factories.

Indications of this result came at the sessions of the investigators when the operating heads of the larger department stores in State street and mall order houses were asked to express opinions as to the effects of a law of this sort. As a climax to the questioning, it was proposed that the employers and state legislators hold joint sessions and draft a minimum wage law to be presented to the legislature.

SIX-POWER LOAN TO CHINA

Bryan Takes Under Consideration the Attitude of This Government.
Washington, March 11.—Secretary of State Bryan took under consideration the question of the attitude which this government may take under the new administration toward the six-power loan to China. He began a series of conferences with representatives of the American group of bankers, including the Morgan firm, participating in the nearly completed loan negotiations. This question puts up to Secretary Bryan and President Wilson at once the necessity of deciding whether there is to be any "dollar diplomacy" in their administration of foreign relations.

Young Actress Secures Divorce From Her Millionaire Husband.

New York, March 11.—The big, strong pull of a well-loved work as against domesticity and luxury, prevailed with Miss Pauline Frederick, actress and whilom wife of Frank M. Andrew, millionaire architect and part proprietor of the new Hotel McAlpin. Scores of the friends of both were surprised to be informed that Miss Frederick had secured an interlocutory decree of divorce from her wealthy husband. There seemed to be no ground for real unhappiness between the actress and her millionaire husband save that she loved her profession and yearned for it. He wanted a wife at home and he had a town house for her near Central park and a country estate.

RETIRED COP'S STORY

Says He Has Collected Protection Money For His Superiors.

New York, March 11.—James Wren, a retired policeman, who formerly was a plain clothes man in the Harlem district, told District Attorney Whitman and the supreme court grand jury that he had collected police protection money on behalf of Inspectors James Thompson and James E. Hussey and Acting Inspector J. J. Murtha, while the men were in command of the Harlem district. He said that his services as a collector covered a period of four years. In this time his collections, as roughly estimated by the district attorney, amounted to about \$2,500 a month. Wren says he received a commission of 20 per cent on all the money collected.

Accuses Husband Of Gross Neglect

Alleging that her husband has been guilty of gross neglect of duty in failure to provide for her, and accusing him of a certain statutory offense, Levilla Lafferty, through Attorneys Gregg & Gregg has brought suit in Common Pleas court for divorce and alimony from Patrick Lafferty.

Plaintiff alleges that she was married to the defendant on May 17, 1910, in Springfield, and that she was ill for some six weeks, during which time the defendant failed to provide for her, or look after her properly, and that he brought a woman of bad character to her room while she was helpless.

After recovering she left the defendant and has remained away since that time. She asks for a divorce and reasonable alimony.

No Indictment Was Returned

Prosecuting Attorney Walter W. Boulger, of Ross county is in receipt of a letter from the prosecutor of Highland county stating that the grand jury failed to indict Dr. Herbert Wilson, of Greenfield, upon serious charges preferred against him in the dying statement of a Chillicothe woman.

It is said that doctors disagreed as to the cause of the woman's death. The failure of the grand jury to return an indictment brings the case to a close.

Made Junk Thief Return Property

A junk dealer from New Holland, who has been in the habit of picking up other people's property and converting it into junk, was caught in the act of stealing a wheel from a wheelbarrow while he was passing a residence on the Circleville pike a few miles east of this city, and was compelled to give up the stolen wheel. The fellow had a boy with him and while driving slowly past the residence of a farmer, the boy leaped to the ground, climbed the fence and securing the farmer's property, went on his way. The farmer's wife saw the performance and notified her husband, who pursued the junkster and under threats of prosecution the fellow quickly gave up the stolen property.

It is said that the fellow has a reputation for securing other people's property, and prosecution is liable to take place.

Todd and Doster Not Available

When the case of Ohio against Edgar T. Crawford, senator, from Carroll county, was called in Columbus Monday, Attorney Belcher, representing Crawford, filed affidavits that ex-Senators John E. Todd and Coke L. Doster, witnesses for the defense, are out of the state.

It is claimed that Doster is in West Virginia and Todd is in California. The state agreed to accept affidavits as to what Todd and Doster would testify to if they were present, and the trial opened.

Crawford is accused of soliciting a \$200 bribe from the Retail Grocers' association to influence his action on trading stamp legislation then pending.

Keeps Your Stove "Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish one-fourth as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE ONE QUALITY

Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, tenders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush free with each can of enamel only.

Use BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

Tillett Wins Over Opponent

Quite a few local boxing enthusiasts went to Columbus Monday evening to witness the various boxing bouts between a number of rising young pugilists, including Floyd Tillett from this city, whose opponent was a man some 35 pounds heavier.

The bout between Tillett and Carlos, a Greek, was a hummer, and there was something doing every minute. The Greek made a good start and so did Tillett, and the Greek kept in the game until in the second round, when Tillett caught him under the jaw with a heavy swing which soon resulted in the decision being given to Tillett.

The swift work of Tillett against his heavier opponent won him much applause from the large crowd of on-lookers.

Superintendent And Trustees' Report

The semi-annual report of the Infirmary superintendent, and quarterly report of the Children's Home trustees has been filed with the County Commissioners, and shows the condition of the two county institutions at the present time.

The report shows 39 inmates at the Infirmary, 17 of whom are between 60 and 70 years of age, and 22 are over 60 years of age. The inmates consist of 27 men and 12 women. At the opening of the six months ending March 1, 1913, the institution contained 34 persons, and nine have been added since that time, while one has died and three have been discharged.

In the Children's Home there are now 33 children, and at the opening of the quarter, the number was 30, divided up 20 boys and 10 girls. The number admitted since December 1 is 6. Two were taken out by parents and one was sent to another institution.

Expenses for the three months reached \$1,092.47, and the receipts were \$785.19.

NEW HOLLAND BRIEFS OF GENERAL INTEREST

James Kennedy Indorsed for the Postmastership to Succeed Present Incumbent—Twenty More Converts Respond to the Last Call in Revival—Other News.

The question of who will be the new postmaster in New Holland is attracting much interest just now, and James Kennedy is apparently in the lead.

At a meeting of the Pickaway County Democratic Central committee recently Mr. Kennedy was indorsed and unless a hitch occurs his name will be presented for appointment in the near future.

It is said that Mr. Kennedy states he will leave the postoffice where it now is and will employ Miss Fannie Thomas, the present clerk, to assist him.

It is whispered that there is some little opposition to Mr. Kennedy's appointment, one or two other "prospects" having come into the arena and have been seeking the job.

Monday night, the last night of the union revival services at the town hall, proved to be one of the best nights of the series, and 20 converts were added to the already large number, bringing the total number up to 141.

Four of the leading business men and several wealthy landowners, wives, mothers, young women, young men and boys and girls made up the score who responded to the call to start life anew.

The Kayser Silk Glove

The name "KAYSER" stamped in the hem of a Silk Glove is assurance of quality and reliability.

The generally acknowledged supremacy of the "KAYSER" Silk Glove is not the work of a day or a year, but the cumulative result of many years leadership, which has compelled recognition and attempted emulation on the part of others in the same field.

The Genuine "KAYSER" Gloves "cost no more" than the "ordinary kind," but are represented as being "just as good."

Imagine what would happen if the dealer offered you your change in money branded "Our Own Make" and represented "just as good" as Uncle Sam's—would you take it without Uncle Sam's endorsement?

To secure Silk Glove value is merely a matter of insisting on this endorsement—the name "KAYSER" in the hem.

President Wilson Mapping Out a Legislative Program.

HE IS PROCEEDING CAUTIOUSLY

Undecided Whether He Will Recommend Revision of Banking and Currency Laws as Well as Revision of the Tariff at the Special Session. Man's Size Job to Revise the Tariff, Says Chairman Underwood.

Washington, March 11. — President Wilson is rapidly getting in touch with the Democratic leaders in congress, and soon will be prepared to map out a legislative program for consideration at the special session of congress. There is a manifest disposition on the part of the new administration to give assurance to the business community that it need not be alarmed.

Just at this time it is the understanding that President Wilson is undecided whether he will recommend revision of the banking and currency laws, as well as revision of the tariff, at the special session. He regards both questions as equally important.

At a conference with Representative Glass the president discussed the question from every angle. He will inform himself more fully on the subject in his conferences with Representative Underwood and the other leaders. Briefly stated, Mr. Glass' position may be summed up thus: He is of the opinion that banking and currency reform is of even more importance than revision of the tariff. He believes that banking and currency reform should be enacted now in order that the disturbance that is bound to follow tariff revision may be minimized as far as possible.

Urging that the activities of congress at the special session be restricted to the tariff, Representative Underwood argues this way: "It is a man's size job to revise the tariff. It is all that congress should be asked to do at a single session."

MUSICAL TREATMENT FOR TUBERCULOSIS.

Poughkeepsie, N. Y., March 11.—Music as an aid in the cure of tuberculosis has proven its value at the Samuel W. Bowne Memorial hospital in this city. The hospital closed its first year of the musical treatment and reported a 50 per cent gain from that cause in the results obtained. Dr. James E. McCambridge, one of the physicians, stated that the music had benefited his patients almost as much as the fresh air cure. "Music relieves the strain in the mind of the sufferer, and when that is done and the patient has other than his troubles to think of he is on the road to recovery," said Dr. McCambridge.

In the treasury, which would enable his successor to avoid many economic difficulties. He also hoped to have the army completely reorganized, containing not less than 8,000 men.

President Huerta said in conclusion that French capitalists had offered Mexico a loan of 400,000,000 francs.

The troops of Carranza, the rebel governor of Coahuila, have been defeated by Mexican federals. The city of Saltillo is reported to have been taken by the Huerta government forces under General Aubert.

A general retreat of rebels under General Monclova from Pesta is reported. The rebels are burning up railway bridges and tearing up the tracks as they retreat. Governor Carranza is already reported at Monclova, and it is expected he will attempt a concentration of his forces there.

High Power Explosives Let Go Over Sea

SEVEN KILLED, TEN HURT

Dynamite Explosion Alarms People For a Distance of Forty Miles.

Glasgow, March 11.—Seven persons were killed and 10 seriously injured by an explosion of dynamite at Nobel's explosive works at Ardeer, about half a mile from Irvine, the largest explosive factory in Great Britain. The terrific detonations alarmed the people throughout the country for a distance of 30 or 40 miles. It rocked buildings, shattered property and created a panic among thousands of people. The little town of Irvine was naturally the greatest sufferer, being the nearest center of population to the works.

FRANCE THE DISTURBER?

Writer Point Out the Alleged Danger Threatening Germany.

Berlin, March 11.—Under the heading "The Peace Disturber," the Cologne Gazette prints a very strong leading article on the present financial situation. It says Germany would have no difficulty in explaining the reasons for the proposed military increase "if the government would only clearly and distinctly and without mystery point out where the danger is threatening us, and that is France. Never have our relations with our western neighbor been so tense as they are today. Never has the revenge spirit there shown itself so plainly. Never before has the French alliance with Russia and the friendship with England been so manifest. All this is for the sole purpose of reconquering Alsace-Lorraine."

Atlee at It

Washington, March 11.—Steps were taken to garner the first fruits of victory for Ohio Democrats when Senator Pomeroy sent in recommendations for four appointments, three postmasters and one surveyor of the port. All are located in the Third Ohio district and are as follows: To be surveyor of the port at Dayton, Clarence N. Greer; to be postmaster at Dayton, Forrest L. May; at Middletown, John Q. Baker; at Oxford, William B. Meyer.

This Office Seeks a Man. Washington, March 11.—That President Wilson and Secretary of State Bryan are having considerable difficulty in finding a satisfactory man who will accept the position of assistant secretary of state, was indicated when it was announced that Huntington Wilson, the present incumbent, will remain at his post indefinitely.

Wanted in Detroit. New York, March 11.—George Petrovich, a Detroit hotelkeeper, was arrested here in response to a request from Superintendent Downey of the Detroit police, who telegraphed that Petrovich was wanted for the alleged theft of \$2,000 worth of diamonds.

TURKS NOW ON VERGE OF DISASTER

Peace Negotiations Probably In Powers' Hands.

WILLING TO MAKE ANY TERMS

Adrianople and Aegean Islands to Be Signed Away to the Allies—Bulgarians Have Also Made Mistakes, According to Vienna Correspondent. Home Rule Movement Afoot in Syria.

London.—There is confirmation from many important sources of the report that in regard to the peace negotiations Turkey is putting herself in the hands of the powers. So far as is known, the porte has not yet embodied a request of this kind in the form of an official note, but through the ambassadors at the capital the powers have been asked unreservedly for mediation.

A correspondent at Vienna in confirming this statement says the Turks are now decidedly worse off than when Kiamil Pasha, the former grand vizier, accepted the proposals of the powers in regard to the surrender of Adrianople and the submission of the question of the Aegean islands to the European governments.

This writer says: "The Young Turks, however, accused Kiamil Pasha of treason and foully assassinated their own friend, Nazim Pasha. They declared

KIAMIL PASHA.

that they would cede neither Adrianople nor the islands. Today, however, they are suing abjectly for the intercession of the powers and are offering in return not only Adrianople and the islands, but also independent of the will of the Ottoman state they are undertaking in advance to accept unhesitatingly any terms which Christian Europe thinks fit to make for them.

"No such self abasing decision has ever been taken by a normal nation since the first chapter of European history was written. No wonder the reform party and the Military league are moving heaven and earth to put a speedy and definite end to a regime which has brought the Ottoman empire and the Turkish race to such a hopeless plight."

The writer says he is informed from authorized Turkish sources that the civil administration and the army are honeycombed with conspiracies. The cabinet, which when peace is concluded and Adrianople signed away, if not before, will be swept from the political scene and those responsible for the national disasters will receive condign punishment. Other and more formidable dangers will be created in Syria, where a home rule movement is being started.

This writer is equally severe in his criticisms of the allies, especially Bulgaria, for in a foolhardy way rejecting the advice of the powers, and the Bulgarians, he says, will now have to forego their hopes of dictating terms to the Turks and will have to place themselves in the hands of the powers.

CANNIBALS NEAR BOSTON.

Professor Shimer Finds at Ipswich Relics of a Neolithic Type.

Boston.—Examinations made by Assistant Professor H. W. Shimer of the Institute of Technology of a shell mound at Ipswich led him to believe that the earliest New Englanders, who lived 3,000 to 5,000 and perhaps 10,000 years ago, were cannibals.

Professor Shimer says: "The neolithic type, such as lived in New England, was of a lighter bone structure than the Neanderthal man of Europe and had a greater brain capacity. Our prehistoric type lived here during the bronze age in Europe and central Asia. These Americans were no doubt descendants of the eastern Asia stock. Their bone formation conforms with the bone structure of the early people of that continent."

"Eat Dog Meat," Amundsen. St. Louis.—Captain Roald Amundsen seriously said that Americans can reduce the high cost of living by eating dog meat. He said he has tried dog meat and has found it good eating, and, besides, it is much cheaper than beef.

Even the most active minds forget sometimes:—The man whose memory doesn't slip these days has little on his mind.

Concentration of mind implies forgetfulness, for the time, of other matters. It isn't serious, because we have the telephone.

If you leave your grip in the train, or forget the order to be given or cancelled, or the social duty of the evening, look about you for the sign of the Blue Bell.

The Long Distance Telephone is the antidote for absent-mindedness.
